

## About myself

I am currently working at Singapore Aero Engines as a Quality technician in B3 sentencing. This year will be my third year the company. I have a total aviation experience of 4 years. I am specialized in inspecting engine modules, planning day to day Work schedule and purchasing of aircraft engine parts. My work experience has taught me and given me the skills to be attentive to details and carry out checks that are assigned to me. It has taught me to read carefully and follow engine manual instructions and drawings. I'm an effective individual and a great team player whose goal is to get the job done.
